

Are you sitting comfortably?

A reading guide for parents

At the British Dyslexia Association we believe that every kind of brain should be valued for its unique way of looking at the world, and we are here to provide support.

Top Tips to support your child with reading:

- Read together for a short time each day and talk about what you have read.
- If your child makes a mistake say the word without comment to keep the flow going - you can discuss the difficult words afterwards
- Echo reading - you read a short section of text then your child reads it to you
- If a book is too hard then read as a 'pair'. If a child makes mistakes with more than 1 - 2 in 10 words, the book is likely to be too challenging for them to read fluently

- Explore technology e.g. Reading pens, screen-reading on a PC, eReader tablets, audiobooks
